

## **Agreement between WIFIBible owners and CRMF**

The WIFIBible is a great new box to distribute the Gospel with WIFI technology. Your customers have the opportunity to download biblical resources (digital bibles, music, movies and apps) for free on to their mobile phone or tablet.

With purchasing a WIFIBible, you agree to the following guidelines:

### **1 You can't charge your customers for downloads**

You can't charge money for downloading resources from the WIFIBible . The resources have to be distributed for free. This WIFIBible service should be completely free for your customers.

### **2 Two WIFIBible stickers promote your site**

With purchasing a WIFIBible, you will get two stickers. The stickers have to be good visible for your customers. You may put one outside of the building and one inside at the counter. You have to put the sticker in the range of the WIFIBible signal! Where you see the sticker, you should be able to connect!

### **3 The WIFIBible has to be always switched on**

The WIFIBible has always to be switched on. This is important so that your customer don't get disappointed. Whenever a customer sees a WIFIBible sticker, he should be able to connect. Let us know if your box does not work properly, so we can fix it.

### **4 Don't manipulate on the flash drive**

For security reasons, it is not possible to change any content on the flash drive. If you add or delete anything on the WIFIBible, it will stop to work. If that occurs, you have to update your WIFIBible again to make it work again.

## 5 Instruct your staff/user

Make sure someone is around who is able to help the users to connect to the WIFIBible. Especially the first time it makes it much easier if the new user can watch someone how to connect to the WIFIBible and how to install the needed Apps. CRMF provides instruction papers how to connect to the WIFIBible, this manual can also be downloaded on the internet. The WIFIBible can only be a success if your customers enjoy it. If you would like to have an instruction for your staff, CRMF is happy to arrange a training session.

## 6 Collect free updates from CRMF

CRMF will do further improvements on the WIFIBible and will update the content in the future. Please come and see CRMF to get a free update for your WIFIBible (just bring in your WIFIBible with flash drive). To see if a newer version is available you can check on [www.wifibible.org](http://www.wifibible.org) as well.

That helps to make your customers happy and to give them the newest content.

## 7 Stay up to date

Visit the WIFIBible website ([www.wifibible.org](http://www.wifibible.org)) to stay up to date. Sign up for the newsletter, if you would like to get news via email.

## 8 Give us feedback

We would like to improve the WIFIBible. Please give us feedback, what you hear from people who use the WIFIBible.

Send us an email: **wifibible@crmf.org.pg**

Text us: **7037'91'91**

## 9 Warranty

CRMF provides at least one year of warranty. If your WIFIBible stops to work, update first your WIFIBible. If it still does not work, bring it to CRMF for repair and we are happy to fix it for free. Only a working WIFIBible can be a blessing to the users.
