*No hidden cost! No mobile credits needed!

What is the WIFiBible?

The WIFiBible is a little box that sends out an open wireless signal so that people in an area of around 30m can connect to this box - **for free**. No mobile credits are needed!

You can use most mobiles phones, tablets or laptops with wireless to connect to the WIFiBible, however Android works the best, as you can download all the needed apps from the WIFiBible to open the files on the WIFiBible.

The WIFiBible has lots of resources stored that can be downloaded for free on your mobile.

Free Bibles, Free songs, Free teaching, Free apps!

Where ever you see the WIFiBible sign, you should be able to find an open wireless called “WIFiBible—Free content”.

For more details and news, please visit our website:

www.wifibible.org

How to connect to the WIFiBible?

1 Find a WIFiBible location

You have to be close (within 30m) from a WIFiBible. You are then you will see a wireless signal called: “WIFiBible-Free Content”.

2 Switch on your wireless

Activate the wireless on your mobile and connect to “WIFiBible-Free Content”. **Switch off “Mobile Data”** if it is activated.

3 Open your internet browser

Open your internet browser and type in the address <http://wifibible.lan> and you will see the WIFiBible screen.

4 Install the needed Apps

You may need an ebook reader or other apps to open all the content on the WIFiBible. Install the recommended apps (red button on the first page). You might have to allow to install apps from other sources (Tick the box in Settings -> Applications -> Unknown sources).

5 Download files from the WIFiBible

You can either stream or Download the files from the WIFiBible on to your mobile to take them with you. You are allowed to share all the files with your friends too.

How can I help to spread the word of God?

You can make a difference and help to spread the Good News in Papua New Guinea! There are still a lot of people who don't have their own Bible! As smart phones are getting more and more common (even in remote locations) it is a great opportunity to provide them a free digital Bible.

Also a lot of people can't read, but the WIFiBible can provide free audio Bibles for them to listen to.

You can set up a WIFiBible in your village, at your business place, in your school, in your PMV or in your church to make the Good News available! And that makes a big difference.

If you would like to buy your own WIFiBible visit CRMF or fill out the back of this page, cut it off and send it to CRMF. We will prepare your WIFiBible so you can pick it up and pay for it.
